

One draft update: 8 DEV parents, 24 instructions, one training seed

A. Within-checkpoint validity changes

B. Within-checkpoint coverage changes

Both arms: 4 drafts + 4 finals, 3000 x 32 updates. Training: global 145.1 s; local 201.8 s (+39.1%).

Drafts differ across arms after joint training. Box-tip checks only; no full-arm or execution certificate.
